

So, despite everything, it is permissible to think that creativity or rather learning and the *wonder of learning* can serve as the strong point of our work. It is thus our continuing hope that creativity will become a normal travelling companion of our children's growth and development.

## The Wonder of Learning Exhibit from Reggio Emilia is now open!

The Vancouver Reggio Consortium Society, together with Frog Hollow Neighbourhood House, is honoured to host *The Wonder of Learning*, a travelling exhibition from the municipal Infant-Toddler Centres and Preschools of Reggio Emilia, Italy. This exhibit calls international attention to the importance of education and schools as places for discussion and mutual exchange. In continuity with the previous exhibition, *The Hundred Languages of Children*, the aim is to reconfirm the values at the heart of the Reggio Emilia educational philosophy. The exhibition speaks to all those involved in schooling, and to all members of the general public who believe that safeguarding educational processes and their evolution is of fundamental importance for society.
